

Boost4Health Grant Scheme

Finance your move into the European market by taking advantage of the Boost4Health grant scheme.

Boost4Health Micro-Financing Scheme

The Boost4Health project is offering Kent-based life science businesses that want to enter the European market, the opportunity to apply for small grants towards market entry and product validation activities.

Who can receive a B4H grant?

- Kent-based life science businesses (SMEs) in the areas of pharmaceuticals, biotechnology, medical technology and nutrition
- SMEs wishing to do business in another European country
- Companies with a turnover of less than €50m and employing fewer than 250 people

How much is available?

Full details will be available shortly but grants can cover:

- **Up to €500** travel grant for attending life science events or meeting companies in NW Europe, including travel accommodation and event entry costs.
- **Up to €3,000** for steps towards market entry such as engaging experts to carry out market research in one of the Boost4Health partner regions.
- **Up to €5,000** towards product validation activities including product testing and consultancy in one of the Boost4Health partner regions.

The Boost4Health project also offers:

- 1-2-1 growth coaching and workshops for Kent companies
- Opportunities to connect with experts across north west Europe. As well as various Life Science clusters in the Netherlands, Spain, Belgium, France, Germany and Denmark.
- Be part of a product validation network supporting European companies wishing to do business in the UK

An application form will be available shortly but in the meantime please register your interest by emailing: emily.paulding@kent.gov.uk
